

DD/A 75-2223

8 MAY 1975

MEMORANDUM FOR: Comptroller

SUBJECT : DCI Financial Guidance Letter of
23 August 1974

Jack:

I know that there has been considerable interaction between our representatives on the subject of paragraph 8.a. of the Director's financial guidance letter. As we both know, there have been demands upon the Office of Personnel that were not envisioned last August. These have impacted directly upon that Office's ability to perform the kind of in-depth analysis which was originally considered possible. Also, much of the personnel management and career management time this past year has been invested in the start up cost of initiating PASG.

These two factors lead me to conclude that the Office of Personnel has done all we can expect them to do for this fiscal year. I would propose that we use the PASG reports as the basis for a more detailed analysis of our commitment of resources to personnel administration and have that analysis to you in the spring of 1976.
